Beautiful Hardy Pæonies
AND OTHER
Hardy Herbaceous Plants
FOR SPRING PLANTING.

Pæonies have become very popular of late years, and deservedly so. No race of Hardy Plants are so effective in large or small gardens, or so easily grown. Their bold showy flowers in early Summer, varying in nearly every shade of colour, are amongst the most conspicuous objects in the borders, and the bright and ornamental foliage in Spring and Autumn is always attractive. Their cultivation is of the simplest. They thrive in any ordinary garden soil, only requiring an occasional dressing of manure. We have a very large and beautiful Collection. They may be planted at any time during the Winter and Spring months.

Cooling's Collection of Pæonies.

Strong Flowering Clumps of various shades of colour.
Named Varieties.

9/-, 12/-, and 15/- per dozen.

Forwarded Carriage and Packing Free on receipt of Cheque
or Postal Note.

*The prices quoted are for good flowering clumps; small plants of
any of the varieties can be supplied at one-third less.*
